Level 100 – NITS Training Guide: NITS Load Designation
IMPORTANT: The notes provide additional information and detail. Look for this symbol in the upper left hand corner to view the notes for each slide (if any). If there isn’t a symbol, there are no additional notes. Hover over the symbol, and the notes will appear. Right Click on the icon and select “Open all Pop Ups” to open all the notes in the presentation. You can make the notes section larger or move it by clicking and dragging your cursor.

The Table of Contents is interactive. Click on any blue highlighted link to go directly to that section. Use the Home button (described below) to return to the Table of Contents.

Click the “Home” button to be taken back to the Table of Contents from anywhere in the presentation. You’ll find this symbol at the bottom of the page in the center.
# Table of Contents

Clicking on a link will take you directly to that section.

Disclaimer:
The following materials are intended for use as informational materials only and are not intended to convey, support, prescribe or limit any market participant activities. These materials do not act as a governing document over any market rules or business practices manual. Any data used in a scenario is test data in a test environment, and should not be used to support market analysis.

This material is based on current system and process designs, and Business Practices Manuals in effect and are subject to change based on stakeholder input.
The NITS Menu

• Access NITS under the Transactions tab in the NITS section.

• To add or modify a Load open Request or Application Summary.

• From the Request or Application Summary pages click on the clipboard icon with the green plus sign and select Add/Modify Load.
Add/Modify Load Template

- Select Provider and Application Ref to trigger the Load Name dropdown to appear.

- To create a **NEW LOAD** name, click on the blue asterisk, and enter your new load name.
### Add/Modify Load Template

**Status:** Queued submits to provider. Presubmitted adds to your presubmittal workspace.

**Preconfirmed:** If Yes, once accepted the request will be Confirmed.

**Load Name:** Populated from what was input in the New Load field.

**Load Area:** If load is in MISO, Load Area = MISO

**POD:** LBA that load will Sink

**SINK:** CP Node of Load

**Load Substation and Load Voltage:** Optional, free form input

**Load Type:** Fixed or Interruptable

**Forecast Method:** OFF_OASIS – Forecast data is a Module E Process and not collected in Module B

**Effective Start and Stop:** Must equal the equivalent of the 1st of a Month at 00:00:00 ES (If your OASIS Time Zone setting defaults to CS, the last day of a month prior at 23:00:00 CS is equal to the 1st of the next month at 00:00:00 ES)

**E.g.** If you want a start or stop of Feb 1, 2022 then **02/01/2022 00:00:00 ES = 01/31/2022 23:00:00 CS**
