Thank you for your Data Request. MISO is committed to processing your request in a timely fashion. Data request fulfillment varies based on the type of data requested and workloads.

MISO may not be able to fulfill requests if these types of conditions exist:

- The data exceeds the MISO Retention schedule.
- The requested data is non-public in nature, and the requestor is not authorized to receive it. (Non-public data includes but is not limited to, information that is market sensitive, or its disclosure may affect reliability and/or pose operational risks.)
- The request is redundant because the data was already provided or made available to the requester through the public website, the MISO Extranet or Market Portal.
- It would require significant effort to collect the requested data.
