2. I am completing this informational form on behalf of the [RERRA] and I am confirming that the generation facility identified in the attached Interconnection Request application should be considered for the ERAS process in order to meet a resource adequacy and/or reliability need that the Load Serving Entity or Interconnection Customer has claimed. I am verifying to MISO that the new, incremental load addition addressed by the Interconnection Customer is valid and not otherwise included in a resource plan or other process under the [RERRA]’s purview.
3. At this time, the [RERRA] [has/has not] completed its formal regulatory reviews of [Project Applicant’s Resource Name].

☐ Not Applicable in [State].

4. I understand that the generation facility must meet certain requirements specified in MISO’s Tariff to qualify for the ERAS process.
5. Nothing within this informational form constitutes a finding that the resource has been formally approved under any of the [RERRA]’s required procedures. Nothing herein constitutes an indication, approval, or certification by the [RERRA] that the [Project Applicant’s Resource Name] is prudent, or that construction or purchase of that generation is or should be authorized at the retail level. That determination is reserved by the RERRA, and any retail RERRA process required under retail law and regulations is not waived. This form shall not be used as evidence by any party to support or justify a request for siting, a Certificate of Public Need or Necessity, cost recovery or any other required RERRA retail jurisdictional determination.
